

10. SAFELY DISPOSING OF AN MODEL F

If a MODEL F sewing machine becomes damaged beyond repair or simply worn to a nonfunctional state after years of service, it should be put out of service only after it is safe to dispose of it. First, drain all the oil out of the machine. Dispose of the oil according to your appropriate local environmental regulations. After the oil has been drained and disposed of, bring the sewing head to a recycling center or metal scrap facility.

11. GLOSSARY

AWG – American Wire Gauge

FPM – Feet per minute

MPM – Meters per minute

NEC – National Electrical Code

NEMA – National Electrical Manufacturers' Association

NFPA – National Fire Protection Association

RPM – Revolutions Per Minute

10. COMO DESECHAR UNA MODEL F

Si la maquina de costura MODEL F se daña al punto de no poder repararse o simplemente después de años de servicio no funciona más, debe discontinuarse su uso. Primero drene todo el aceite que haya en la máquina. Deséchelo de acuerdo a las regulaciones ambientales locales. Después de remover y desechar el aceite, lleve el cabezal al centro de procesamiento para metales.
